CONTENTS

No. 1, September 20, 1957

PAGE

Weiss, Paul, and Kavanau, J. Lee. A model of growth and growth control in mathematical terms 1

Deyrup, Ingrith J. Factors influencing the uptake and loss of radiosulfate by rat renal cortical tissue *in vitro* 49

Slade, Hutton D. Studies on *Streptococcus pyogenes*. III. The effect of trypsin and a cationic detergent on the structure, permeability, and metabolism of the cell 63

Airth, R. L., and Blinks, L. R. Properties of phycobilins from *Porphyra naiadum* 77

Haff, R. F., and Swim, H. E. The amino acid requirements of rabbit fibroblasts, strain RM3-56. Plates 1 to 3 91

Heinz, Erich, and Durbin, Richard P. Studies of the chloride transport in the gastric mucosa of the frog 101

Northrop, John H., and Kunitz, M. The proportion of mutants in bacterial cultures 119

Northrop, John H. The proportion of terramycin-resistant mutants in *B. megatherium* cultures 131

Curran, Peter F., and Solomon, A. K. Ion and water fluxes in the ileum of rats 143

Harris, E. J. Permeation and diffusion of K ions in frog muscle 169

Harris, E. J., and Prankerd, T. A. J. Diffusion and permeation of cations in human and dog erythrocytes 197

Korner, A., and Tarver, H. Studies on protein synthesis *in vitro*. VI. Incorporation and release of amino acids in particulate preparations from livers of rats 219

No. 2, November 20, 1957

Feigelson, Muriel, Feigelson, Philip, and Gross, Paul R. Xanthine oxidase activity in regenerating liver 233

Sidel, Victor W., and Solomon, A. K. Entrance of water into human red cells under an osmotic pressure gradient 243

Paganelli, C. V., and Solomon, A. K. The rate of exchange of tritiated water across the human red cell membrane 259

Ito, Toshio, and Fraenkel, G. γ-Butyrobetaine as a specific antagonist for carnitine in the development of the early chick embryo 279

PAGE

ROSENBERG, THOMAS, and WILBRANDT, W. Uphill transport induced by counterflow 289

LLOYD, DAVID P. C. Input-output relation in a flexor reflex 297

HERRIOTT, ROGER M., and BARLOW, JAMES L. The protein coats or "ghosts" of coliphage T2. II. The biological functions 307

AMATNIEK, E., FREYGANG, W. H., JR., GRUNDFEST, H., KIEBEL, G., and SHANES, A. The effect of temperature, potassium, and sodium on the conductance change accompanying the action potential in the squid giant axon 333

RALSTON, DORIS J., BAER, BEATRICE S., LIEBERMAN, MIRIAM, and KRUEGER, ALBERT P. Lysis from without of *S. aureus* K_1 by the combined action of phage and virolysin 343

KRUEGER, ALBERT P., SMITH, R. F., and GO, ING GAN. The action of air ions on bacteria. I. Protective and lethal effects on suspensions of staphylococci in droplets 359

BLINKS, L. R., and AIRTH, R. L. Electroosmosis in *Nitella* 383

HUF, ERNST G., DOSS, NORMA S., and WILLS, JOYCE P. Effects of metabolic inhibitors and drugs on ion transport and oxygen consumption in isolated frog skin 397

RUSHTON, W. A. H. Blue light and the regeneration of human rhodopsin *in situ* 419

No. 3, JANUARY 20, 1958

BERGLUND, FREDRIK, and FORSTER, ROY P. Renal tubular transport of inorganic divalent ions by the aglomerular marine teleost, *Lophius americanus* 429

PERLMANN, GERTRUDE E. Enzymic dephosphorylation of pepsin and pepsinogen 441

RUPERT, CLAUD S., GOODGAL, SOL H., and HERRIOTT, ROGER M. Photoreactivation *in vitro* of ultraviolet inactivated *Haemophilus influenzae* transforming factor 451

BRYANT, S. H. Transmission in squid giant synapses. The importance of oxygen supply and the effects of drugs 473

CASTAÑEDA-AGULLÓ, M., and DEL CASTILLO, LUZ M. Simultaneous hydrolyses of esters and proteins at saturation levels 485

HUBBARD, RUTH, and ST. GEORGE, ROBERT C. C. The rhodopsin system of the squid 501

DALTON, JOHN C. Effects of external ions on membrane potentials of a lobster giant axon 529

FREYGANG, W. H., JR. An analysis of extracellular potentials from single neurons in the lateral geniculate nucleus of the cat 543

PAGE

HEMPLING, H. G. Potassium and sodium movements in the Ehrlich mouse ascites tumor cell 565

ROTHSTEIN, A., HAYES, A., JENNINGS, D. H., and HOOPER, D. C. The active transport of Mg^{++} and Mn^{++} into the yeast cell 585

MONTY, KENNETH J., and DOUNCE, ALEXANDER L. The properties and the enzymatic degradation of deoxyribonucleoprotein from liver cell nuclei 595

PONDER, ERIC, and PONDER, RUTH V. A progressive reaction occurring with a radioactive hemolysin, sodium oleate-I^{131} 609

No. 4, MARCH 20, 1958

GASSER, HERBERT S. The postspike positivity of unmedullated fibers of dorsal root origin 613

CRANEFIELD, PAUL F., and HOFFMAN, BRIAN F. Propagated repolarization in heart muscle 633

PONDER, ERIC, and PONDER, RUTH V. A zone phenomenon and a progressive reaction occurring with a radioactive hemolysin, sodium erucate-I^{131} 651

LEAF, ALEXANDER, ANDERSON, JOHN, and PAGE, LOT B. Active sodium transport by the isolated toad bladder 657

BERGERSEN, F. J., and MERZ, B. E. A modified capillary microrespirometer 669

FITZHUGH, RICHARD. A statistical analyzer for optic nerve messages 675

BRUCE, A. K. Response of potassium retentivity and survival of yeast to far-ultraviolet, near-ultraviolet and visible, and x-radiation 693

WARD, JOHN M., and NICKERSON, WALTER J. Respiratory metabolism of normal and divisionless strains of *Candida albicans* 703

KLEBANOFF, S. J. The effect of x-radiation on the glutathione metabolism of intact erythrocytes *in vitro* 725

KLEBANOFF, S. J. The relationship of hydrogen peroxide to the inhibition of the glyoxalase activity of intact erythrocytes by x-radiation 737

BRINER, G. P., SIMON, SHIRLEY E., and SHAW, F. H. The distribution of inorganic phosphate in amphibian muscle 755

BRONNER, FELIX. Disposition of intraperitoneally injected calcium-45 in suckling rats. Plates 4 to 6 767

WITTENBERG, JONATHAN B. The secretion of inert gas into the swim-bladder of fish 783

LOEWENSTEIN, WERNER R., and ALTAMIRANO-ORREGO, RAFAEL. The refractory state of the generator and propagated potentials in a Pacinian corpuscle 805

PAGE

LOEWENSTEIN, WERNER R. Generator processes of repetitive activity in a Pacinian corpuscle 825

LOEWENSTEIN, WERNER R. Facilitation by previous activity in a Pacinian corpuscle 847

No. 5, MAY 20, 1958

HARA, TOMIYUKI. The effect of illumination on the electrical conductance of rhodopsin solutions 857

VAN DER KLOOT, WILLIAM G. The effect of enzyme inhibitors on the resting potential and on the ion distribution of the sartorius muscle of the frog 879

EPPLEY, RICHARD W. Sodium exclusion and potassium retention by the red marine alga, *Porphyra perforata* 901

CASTLE, EDWARD S. The topography of tip growth in a plant cell 913

NEVIS, ARNOLD H. Water transport in invertebrate peripheral nerve fibers 927

HURLBUT, W. P. Effects of azide and chloretone on the sodium and potassium contents and the respiration of frog sciatic nerves 959

GILBERT, DANIEL L., GERSCHMAN, REBECA, RUHM, K. BARCLAY, and PRICE, WILLIAM E. The production of hydrogen peroxide by high oxygen pressures 989

WILSON, VICTOR J. Early post-tetanic potentiation and low frequency depression of some group I reflex actions 1005

JENNINGS, D. H., HOOPER, D. C., and ROTHSTEIN, A. The participation of phosphate in the formation of a "carrier" for the transport of Mg^{++} and Mn^{++} ions into yeast cells 1019

GRACE, T. D. C. The prolonged growth and survival of ovarian tissue of the promethea moth (*Callosamia promethea*) *in vitro*. Plate 7 1027

DURBIN, RICHARD P., and HEINZ, ERICH. Electromotive chloride transport and gastric acid secretion in the frog 1035

HARTLINE, H. K., and RATLIFF, FLOYD. Spatial summation of inhibitory influences in the eye of *Limulus*, and the mutual interaction of receptor units 1049

LEHMAN, I. R., and HERRIOTT, ROGER, M. The protein coats or "ghosts" of coliphage T2. III. Metabolic studies of *Escherichia coli* B infected with T2 bacteriophage "ghosts" 1067

CSAPO, ARPAD, and SUZUKI, TAIZO. The effectiveness of the longitudinal field, coupled with depolarization in activating frog twitch muscles .. 1083

No. 6, JULY 20, 1958

DWORKIN, MARTIN. Endogenous photosensitization in a carotenoidless mutant of *Rhodopseudomonas spheroides* 1099

PAGE

YOCUM, C. S., and BLINKS, L. R. Light-induced efficiency and pigment alterations in red algae 1113

HAGIWARA, SUSUMU. Synaptic potential in the motor giant axon of the crayfish 1119

KOBLICK, DANIEL C. The characterization and localization of frog skin cholinesterase 1129

BERGER, EUGENE Y., and STEELE, J. MURRAY. The calculation of transfer rates in two compartment systems not in dynamic equilibrium 1135

APPELBOOM, JOHANNES W. TH., BRODSKY, WILLIAM A., TUTTLE, WILLIAM S., and DIAMOND, ISRAEL. The freezing point depression of mammalian tissues after sudden heating in boiling distilled water 1153

GOLDSMITH, TIMOTHY H., and RUCK, PHILIP R. The spectral sensitivities of the dorsal ocelli of cockroaches and honeybees. An electrophysiological study 1171

ASANO, TOMOAKI, and HURLBUT, W. P. Effects of potassium, sodium, and azide on the ionic movements that accompany activity in frog nerves 1187

KISHIMOTO, UICHIRO. Rhythmicity in the protoplasmic streaming of a slime mold, *Physarum polycephalum*. I. A statistical analysis of the electric potential rhythm 1205

KISHIMOTO, UICHIRO. Rhythmicity in the protoplasmic streaming of a slime mold, *Physarum polycephalum*. II. Theoretical treatment of the electric potential rhythm 1223

LOEWENSTEIN, WERNER R., and RATHKAMP, RAQUEL. The sites for mechano-electric conversion in a Pacinian corpuscle 1245

INDEX TO VOLUME 41 1267
